## RE P O R T.

---

TO HIS EXCELLENCY JOHN POYNTZ, EARL SPENCER, K.G.  
LORD LIEUTENANT-GENERAL AND GENERAL GOVERNOR OF IRELAND.

Queen's University, Dublin Castle,  
June 1, 1872.

*May it please your Excellency,*

As Chancellor of the Queen's University in Ireland, it becomes my duty, in compliance with the provisions of Her Majesty's Charter, to furnish to your Excellency the Report of the Condition and Progress of the University since the 1st June, 1871.

The General University Examinations during the period of this Report commenced on the 26th of September, and terminated on the 9th of October, 1871. Examinations for Degrees in the Faculty of Medicine were also held in June, and First University Examinations in Arts and Engineering were also held in January. At these various Examinations 481\* Candidates presented themselves. Lists of those who were successful are annexed, and a *App. II.* List of the Students Matriculated in the University since the first of October last.

In addition to these Examinations for Members of the University, Examinations of Candidates who are not Members were held in the month of June. Lists of those who were successful are *App. II.* annexed.

The principal public meeting of the University, to confer degrees and diplomas, and distribute prizes, was held in St. Patrick's

\* In this number the same persons are counted twice wherever they underwent two distinct University Examinations within the year. This happened in 128 cases, so that the number of individuals examined was 353.

App. I. Hall, Dublin Castle, on the 12th of October last. An account of the proceedings is appended to this Report.

The following papers are also annexed for your Excellency's information:—

App. III. The Estimate for the year.

App. IV. The Cash Account for the year.

App. V. A Return of the several Meetings of the Senate since my last

Report.

I have the honour to be,

Your Excellency's  
Obedient and faithful Servant,

KILDARE,

*Chancellor.*

## APPENDIX.

### APPENDIX L

Appendix.

PUBLIC MEETING of the QUEEN'S UNIVERSITY in IRELAND, held in St. Patrick's Hall, Dublin Castle, on the 12th October, 1871. <sup>L</sup> <sub>Public Meeting.</sub>

AFTER the close of the examinations of the year 1871, a public meeting of the Queen's University was held in Dublin Castle on the 12th October, 1871, for conferring degrees, diplomas, and prizes.

A large number of distinguished persons having taken their places in the Examination Hall, the Most Honorable the Marquis of Kildare, Chancellor of the University, the Senate, the Professors and Examiners, and the Candidates, entered it in procession.

The CHANCELLOR opened the meeting with the following address:—

LADIES AND GENTLEMEN—We have again this year to lament the death of one of the great officers of the Queen's University. Sir Maurice Brady was Vice-Chancellor from its foundation, and always devoted his time and anxious attention to its interests. It is only necessary to refer to the many able addresses delivered by him in this Hall to see how carefully he watched the progress of the University and Colleges, and the moral and material interests of the students.

The honour of the degree of Doctor in Science has been conferred upon Dr. Wyvill Thomson, formerly Professor in this University, and now Professor in that of Edinburgh (applause).

The only change in the regulations of the Senate during the past year which calls for notice, has been a change which affects the way in which the First University Examinations in Arts and Engineering are conducted. These examinations are held at the end of the first two years' study in these faculties. Hitherto the examinations have been held in the Queen's Colleges, the same questions being simultaneously set in all. They have been held this time in Dublin; an arrangement which has enabled the examiners to put oral as well as paper questions to each candidate, and has also enabled them to confer with one another at a combined meeting of the examiners, before deciding on the results. This change also involved a slight change also of the time of year at which the examinations are held, and owing to this, these examinations have been held three times instead of twice, within the academic year which has now closed. At these several examinations there were 94 candidates in arts, of whom 71 have satisfied the examiners, and 32 candidates in engineering, of whom 15 have passed. At the first University examination in the faculty of medicine 132 candidates presented themselves, of whom 90 have come up to the standard required by the examiners.

Turning now to the final examinations for the several degrees, we find from the returns of the examiners that they have examined 79 candidates for the degree of M.D., of whom 61 have satisfied them, and 57 candidates for the mastership in surgery, of whom 42 passed. In arts there have been 18 candidates for the degree of master, of whom 17 have acquitted themselves to the satisfaction of the examiners, and 45 candidates

*Appendix.* for the degree of bachelor, of whom 42 have passed. For the degree of LL.B. there have been six candidates, of whom five have been successful; and for the degree of B.E. nine candidates, of whom seven passed. The answering of the candidates, too, appears to have been in several cases deserving of notice. It has been especially reported to the senate in three instances. Mr. Pye, who will this day receive the degree of M.D. with honours of the first class, is returned by the examiners as having received his honours upon unusually high answering (applause). Mr. Blyth has been awarded a first-class certificate in experimental science upon answering which is also returned to the senate as unusually good (applause); and Mr. Patrick Lynan's answering at the first University examination in engineering has been thought deserving of similar commendation.

With respect to distinctions won by our students outside the University, we have no means of collecting complete statistics, but the following cases having been brought under my notice may be mentioned here. Mr. Raymond West, a Master in Arts of the University, and a former student of Queen's College, Galway, has been appointed a Judge of the High Court of Bombay. Before leaving Ireland he had obtained a studentship in the Inns of Court in Dublin. Mr. Robert MacSwinney, a Bachelor in Laws, and a graduate in arts of the University, who also was a student of Queen's College, Galway, has been awarded a first-class exhibition at the Inns of Court in London. Mr. Samuel Anglin, Bachelor in Engineering, who studied in Queen's College, Cork, has obtained a second Whitworth Scholarship in the open competition of 1871; and Mr. John Earl Oram, another Bachelor in Engineering, who was educated at Queen's College, Galway, has been appointed to the chair of mathematical sciences and engineering in Kingston College, Windsor, Nova Scotia. Mr. Charles Coatsworth, who is one of the candidates that have just been awarded Peel Exhibitions in this University for their distinguished answering at the first University examination in arts, has also won under the Department of Science and Art one of the Royal Scholarships on distinguished answering. In the army medical competition many of our graduates have, as usual, been successful. I find in the list Drs. M'Cracken and Dickson, of the Queen's College, Belfast; and Drs. Macnamara, Beamish, and O'Carroll, of the Queen's College, Cork; and Drs. Martin, Wilson, Joynt, Blood, Edge, and Drury, of the Queen's College, Galway. Similarly, Dr. Power of the Queen's College, Cork; and Drs. Kearney, Reed, and Rathborne, of the Queen's College, Galway, have been successful at competitions for admission to the medical service of the Royal Navy. Although some of these medical men have been in part educated elsewhere, the positions which they have won for themselves must be in great part attributed, as well as the entire success of the graduates of other faculties whom I have named, to the efficient teaching of the Colleges of this University (applause).

The degrees and certificates, &c., were then conferred upon the successful students by the Chancellor.
